Summary

Hi , Shravan here. I'm presently in my first-year of BE, pursuing Computer Science and Engineering (Specialization in Artificial Intelligence & Machine Learning) from M S Ramaiah Institute of Technology. I've been enjoying coding for a few years now. I've created a slew of Android apps. My interests vary from Web designing, App development, to Product research, Cinematography and, among other things, but I still wish to explore other fields too. I create blogs on Technology and Online resources, as well as give advise on some of the frequent tech difficulties.
